KISHOR KUMAR PAROI

AI Systems Architect • Distributed MLOps • Founder @ KoomAI • B.Sc. CSE (RUET)

Dhaka, Bangladesh / Global Remote • kishor.ruet.cse@gmail.com • +880 1724-714156 • kishor.tech • github.com/KishorKumarParoi • linkedin.com/in/kishor-kumar-paroi-b06344166

EXECUTIVE SUMMARY

Results-oriented **AI Systems Architect & Founder** with proven track record designing low-latency GenAI inference engines, production 24/7 multi-agent meshes, and enterprise cloud lakehouses. Architected **sub-35ms Hybrid RAG** pipelines (Qdrant + FlashRank ONNX), fine-tuned LLMs (QLoRA, RSLoRA, DPO) with vLLM serving, and accelerated edge vibration processing via **Rust 1.85 SIMD** by >40%. B.Sc. in Computer Science & Engineering from RUET (Merit Rank 483rd nationwide).

PROFESSIONAL EXPERIENCE

phi0.ai — *Forward Deployed AI Engineer (Production RAG & MLOps)* | **Europe (Remote) • Jul 2026 – Oct 2026**

- Architected enterprise Hybrid RAG system combining dense vectors (Qdrant) and sparse BM25 with local FlashRank ONNX cross-encoder re-ranking; maintained **P99 latency <35ms** under high concurrent traffic.
- Deployed 24/7 autonomous agentic workflows using LangGraph and local open models (NVIDIA Nemotron-70B, Gemma-2); eliminated hallucinations with strict programmatic Fact Guard audit loops.
- Automated 12-stage GitOps CI/CD pipelines with ArgoCD on Kubernetes (EKS/GKE), cutting deployment cycles by **96% (4h to 8m)** with zero-downtime blue/green rollouts.

KoomAI — *Founder & Principal Architect (Enterprise Video Intelligence)* | **Live: koom.kishor.tech • Jan 2025 – Dec 2025**

- Founded, engineered, and delivered full-stack enterprise asynchronous video platform across WebRTC SVC backend, Next.js 16 web app, Electron desktop, and Chrome Extension.
- Optimized end-to-end media transcoding and transcription pipeline with sub-120ms glass-to-glass latency leveraging AWS S3, CloudFront CDN, and distributed worker queues.

Samsung AI Core / Care Health — *Data Engineering & AI Systems Intern* | **Gurgaon / Remote • Mar 2026 – Jun 2026**

- Built large-scale health telemetry ETL pipelines processing multi-gigabyte clinical signals using PySpark, Delta Lake, and Kafka event streaming with 99.98% pipeline SLA.

kepi.ai — *Senior Full Stack Engineer* | **Rajshahi / Remote • Jan 2022 – Sep 2025**

- Directed microservices modernization across Node.js/FastAPI; designed resilient database architectures with PostgreSQL and Redis caching, serving 250K+ monthly requests.

PRODUCTION ARCHITECT PROJECTS

Autonomous 24/7 Multi-Agent Career & Outreach System • *LangGraph, vLLM, FastMCP, Python*

- Built 24-hour continuous agent network scanning 19K+ live job postings, extracting tech founder contacts, and generating verified fact-audited cold outreach with zero API token cost.

Zomato AI Lakehouse & Real-time MLOps Platform • *Databricks, Snowflake, PySpark, Feast, MLflow*

- Designed end-to-end Medallion lakehouse architecture with automated drift detection, low-latency feature serving via Feast, and automated model governance.

TECHNICAL SKILLS & COMPETENCIES

Core AI & LLMOps: PyTorch, vLLM, LangGraph, LangChain, HuggingFace, PEFT (QLoRA, RSLoRA, DPO), TensorRT-LLM, RAGAS, MLflow, Feast, Kubeflow

Distributed Big Data: Snowflake, Databricks, PySpark, Delta Lake, Apache Kafka, Apache Airflow, dbt Core, Azure Data Factory, Synapse, Qdrant

Cloud & DevSecOps: AWS (EKS, SageMaker, Bedrock), GCP (GKE, BigQuery, VertexAI), Azure (AKS, Databricks), Docker, Kubernetes, Terraform, ArgoCD GitOps, CI/CD

Languages & Systems: Python, Rust 1.85 (SIMD/Actix), C/C++, Go, SQL, Bash, TypeScript, Next.js 16, FastAPI, PostgreSQL, Redis, WebRTC, Three.js

EDUCATION

Rajshahi University of Engineering & Technology (RUET) — *B.Sc. in Computer Science & Engineering* | **2018 – 2023**

- CGPA: 3.25 / 4.00 • National Merit Rank: **483rd in Bangladesh** • Focus: Distributed Systems, Compiler Design, Machine Learning.
